

Dear Denise

Gardening is ground breaking

Why did the garden feel overcrowded?
There wasn't mushroom.

Some folks spent a lot of time sitting and peering into their garden ...
They are called "Medi Tators."

My wife works over-thyme in her herb garden before she decides it is time to cummin.

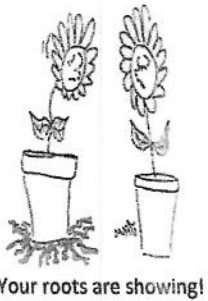

Teach a man to fish and he eats for a day
Teach a woman to garden and the whole neighborhood gets zucchini

Why did the gardener quit?
Because his celery wasn't high enough.

Gardening is cheaper than therapy and you get tomatoes

Scarecrows are always out garden their patch

How do you know you are a Master Gardener?
There is a decorative compost container on your kitchen counter.

♥ Jean-Larry
